O R D E R

On June 22, 1984, GTE Sprint Communications Corporation ("Sprint") and MCI Telecommunications Corporation ("MCI") filed motions seeking full intervention in this proceeding. Sprint and MCI each allege they are specialized common carriers with requests pending with the Commission which, if granted, would permit them to provide interLATA intrastate toll services. As such, both MCI and Sprint allege they will be directly affected by the access charge tariffs under consideration herein and that their interests are not already adequately represented by the current parties to this proceeding. Finally, MCI and Sprint state that they will accept the record and decisions previously made in this case and that they do not intend to cause undue delay.

The Commission, having considered the Motions and there being no response filed thereto and being advised, HEREBY ORDERS that

the Motions of Sprint and MCI for full intervention be and they hereby are sustained.

Done at Frankfort, Kentucky, this 12th day of July, 1984.
